

1. GATHER CARDBOARD TO MAKE A 7.4'X5.5' RECTANGLE. MAKE SURE ALL THE CORRUGATED LINES OF THE CARDBOARD FACE THE SAME DIRECTION. IT'S EASIER IF THE LINES RUN HORIZONTAL.

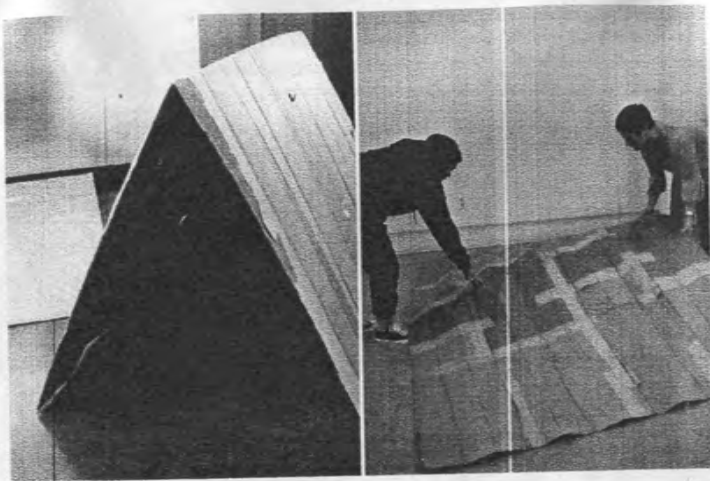

2. MARK LINES 5.5" APART.

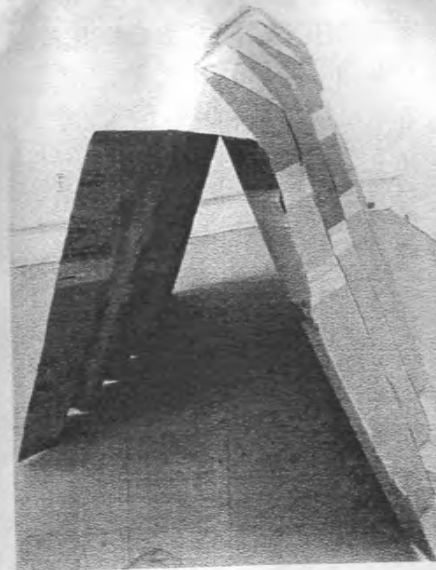

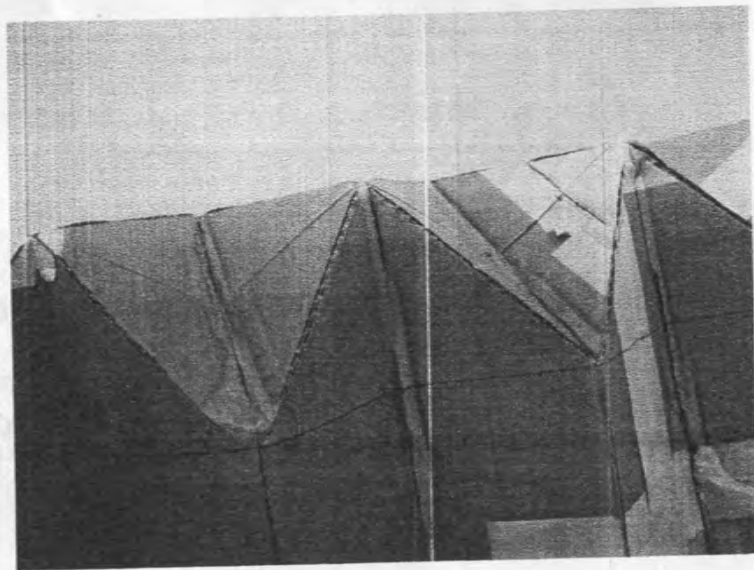

3. PLEAT THE CARDBOARD

4. DRAW A LINE FOR THE CENTER. DRAW TWO LINES 6" APART FROM THE CENTER (SHORT DOTTED LINES). DRAW DIAGONALS TO CREATE THE DIAMOND ROOF (LONG DOTTED LINES). MAKE SURE TO GO FROM POINT A TO B. 'A' SHOULD ALWAYS START AT A "CREASE DOWN" LINE.

5. FOLD THE CARDBOARD IN HALF ALONG THE CENTER LINE.
6. HAVE SOMEONE TO HELP YOU START PLEATING IT AGAIN WHILE PUSHING DOWN ON THE DIAMOND SHAPE TO FORM THE ROOF

## HOW TO MAKE A PORTABLE SHELLHOUSE
